Date Issued: July 29, 1998**

POLICY ON SELF-EMPLOYMENT AS A VOCATIONAL GOAL

All clients who are considering self-employment as a vocational goal will complete the Business Assessment Scale with their VR counselor and two individuals trained to administer the scale. If the counselor is trained to administer the assessment scale, only one other trained individual needs to participate.

The results will be used to identify training, service and support needs which will be included in the IWRP/Employment Plan as appropriate.
